

The Open University of Sri Lanka

01

Information services for Researchers

The Open University library offers an information service **for the external community** to assist in completing your research project successfully.

Our Services

- Finding relevant information at any point in the research process/ Literature survey**
 We will guide you in finding relevant, quality research papers and other information resources for your research study.
 We can also provide you the research papers required to your study
- Citation management**
 You can get consultation on inserting in-text citations to your report/ thesis, developing a list of references, and using reference management software like Mendeley or Zotero for organizing, managing information resources, and building references.
- Workshops and training**
 We organize workshops and training on different aspects of research methodology such as effective literature searching, literature review and avoiding plagiarism, introduction to data analysis using SPSS, thesis and report formatting, reference management using Mendeley

visit Our website for more information :- <http://lib.ou.ac.lk>

Service Charges:

Service	Rate(Rs)
Research guidance	500.00 per hour
Searching and providing information resources	1000.00 per article
Workshops and training	Rates may vary

What We Do

Information service is an appointment with a librarian of the Open University for getting in-depth information for your research. We will match your information needs with a librarian who has expertise in the subject areas of your requirement and arrange a time to teach and guide you.

02

Who is eligible to this service

This service is available for any external researcher and research students.

How to make an appointment/ Forward your inquiry:

Fill out the Information Service form available in the OUSL library website to request for an appointment or forward your information need. You can get consultation either by visiting in person or online via zoom
